

Dear FCC:

I have been informed of your plan to implement a nationwide no call plan to deter telemarketers.

I live in Indiana and since signing up on their implemented plan have been well pleased with the results. After the first 2 weeks of Jan. I no longer received unwanted solicitation calls. Previously I was bombarded with 10 a day. It has been pleasant.

I am asking that whatever plan you implement not override Indiana's current plan and allow these calls to return. I live alone and they were quite a bother.

Thanks,

Craig Carlisle
